PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
April 27, 1989.
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*
 12. *Mr Cousens*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
 13. *Mr Johnson* (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medi-

cal and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*
 12. *Mr Cousens*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
 13. *Mr Johnson (Wellington)*—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medi-

cal and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

Second Reading Bill 27, An Act to designate an Avian Emblem for Ontario.
Mr Ballinger.

Ballot Item Number 8. *To be debated on Thursday, June 15, 1989.*

Miss Martel—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario.

Ballot Item Number 9. *To be debated on Thursday, June 22, 1989.*

Mr Cousens—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive.

Ballot Item Number 10. *To be debated on Thursday, June 22, 1989.*

Mrs Sullivan—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments.

Ballot Item Number 11. *To be debated on Thursday, June 29, 1989.*

Second Reading Bill 12, An Act respecting Environmental Rights in Ontario.
Mrs Grier.

Mr Johnson (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the

province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program.

(June 8, 1989)

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 11. *Miss Martel*—Resolution—That, in the opinion of this House, recognizing that those directly affected by the government's attempt to reform workers' compensation—labour groups, injured workers and their advocates—are overwhelmingly opposed to Bill 162 and want it scrapped, the Government of Ontario should immediately withdraw Bill 162 and begin a real process of consultation with the stakeholders to bring in needed progressive reform to workers' compensation in Ontario. *May 18, 1989.*
 12. *Mr Cousens*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
 13. *Mr Johnson (Wellington)*—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medi-

cal and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 11. *Debated June 15, 1989.*
 12. *Mr Cousens*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
 13. *Mr Johnson* (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and sci-

entific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*
 16. *Mr Philip* (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 12. *Mr Cousens*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
 13. *Mr Johnson* (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*
 16. *Mr Philip (Etobicoke-Rexdale)*—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*

208. *Mr McLean*—Enquiry of the Ministry—Would the Minister of Tourism and Recreation provide a list of the consultant's reports commissioned by his ministry in fiscal years 1987/88 and 1988/89. *June 20, 1989.*

(Precedence in accordance with the Standing Order 71 (d).)

Ballot Item Number 9. *To be debated on Thursday, June 22, 1989.*

Mr Cousens—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive.

Second Reading Bill 12, An Act respecting Environmental Rights in Ontario. Mrs Grier.

Ballot Item Number 12. *To be debated on Thursday, June 29, 1989.*

Mr Johnson (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program.

Ballot Item Number 13. *To be debated on Thursday, July 6, 1989.*

Mr Black—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of "contributing to the delinquency of a juvenile", there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-

related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult.

Ballot Item Number 14. *To be debated on Thursday, July 6, 1989.*

Mr Philip (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations.

(June 8, 1989)

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 12. *Mr Cousens*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
 13. *Mr Johnson* (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counseling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*
 16. *Mr Philip* (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 71 (d).)

Ballot Item Number 9. *To be debated on Thursday, June 22, 1989.*

Mr Cousens—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive.

Ballot Item Number 10. *To be debated on Thursday, June 22, 1989.*

Mrs Sullivan—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments.

Ballot Item Number 11. *To be debated on Thursday, June 29, 1989.*

Second Reading Bill 12, An Act respecting Environmental Rights in Ontario.
Mrs Grier.

Ballot Item Number 12. *To be debated on Thursday, June 29, 1989.*

Mr Johnson (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program.

Ballot Item Number 13. *To be debated on Thursday, July 6, 1989.*

Mr Black—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of "contributing to the delinquency of a juvenile", there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-

related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult.

Ballot Item Number 14. *To be debated on Thursday, July 6, 1989.*

Mr Philip (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations.

90. (e) Standing Committee on Estimates;
(June 8, 1989)

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 12. *Mr Cousens*—Resolution—That, in the opinion of this House, recognizing the negative environmental impact that the proposed East Metro Transportation Corridor may have on the Rouge River Valley System, the Government of Ontario and in particular, the Ministry of Transportation, should conduct a detailed study, in conjunction with Metro Toronto, the City of Scarborough, the Town of Markham, and the Region of York, to determine an appropriate East Metro transportation strategy whereby transportation needs for the Greater Toronto Area and environmental concerns are not mutually exclusive. *May 25, 1989.*
 13. *Mr Johnson* (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 14. *Mrs Sullivan*—Resolution—That, in the opinion of this House, recognizing that the Government of Canada has initiated a Royal Commission on Reproductive Technologies, and that people in Ontario should be represented in the discussion of current and potential developments in the medical and scientific issues related to human fertilization and embryology, the Government of Ontario should co-operate to the fullest extent, and should encourage participation with the Royal Commission by Ontario institutions which are engaged in the delivery of any aspect of reproductive technology in considering the social, ethical and legal implications of medical and scientific developments in this field, and to recommend policies and safeguards to address the issues raised by these developments. *May 29, 1989.*

15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*
 16. *Mr Philip* (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*

(June 8, 1989)

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 70 (a)

1. *Mr Brandt*—Notice—That the Government lacks the confidence of the House because of the failure of the Premier to establish and enforce ethical standards of conduct for members of his government, including Ministers of the Crown and senior appointed officials, because of the questionable relationship among members of the government, the Liberal Party of Ontario, political appointees and financial supporters, because of the allegations of favouritism in the awarding of contracts to friends of government, and because of the Premier's failure to assume full responsibility for the actions of those whom he has appointed. *June 26, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other

workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

12. *Debated June 22, 1989.*

13. *Mr Johnson (Wellington)*—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*

14. *Debated June 22, 1989.*

15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which

included an offence of "contributing to the delinquency of a juvenile", there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*

16. *Mr Philip* (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 71 (d).)

Ballot Items Number 9 and 10. *Debated June 22, 1989.*

Ballot Item Number 11. *To be debated on Thursday, June 29, 1989.*

Second Reading Bill 12, An Act respecting Environmental Rights in Ontario.
Mrs Grier.

Ballot Item Number 12. *To be debated on Thursday, June 29, 1989.*

Mr Johnson (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program.

Ballot Item Number 13. *To be debated on Thursday, July 6, 1989.*

Mr Black—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult.

Ballot Item Number 14. *To be debated on Thursday, July 6, 1989.*

Mr Philip (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations.

(June 8, 1989)

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 70 (a)

1. *Mr Brandt*—Notice—That the Government lacks the confidence of the House because of the failure of the Premier to establish and enforce ethical standards of conduct for members of his government, including Ministers of the Crown and senior appointed officials, because of the questionable relationship among members of the government, the Liberal Party of Ontario, political appointees and financial supporters, because of the allegations of favouritism in the awarding of contracts to friends of government, and because of the Premier's failure to assume full responsibility for the actions of those whom he has appointed. *June 26, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other

workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
-
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 13. *Mr Johnson* (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of "contributing to the delinquency of a juvenile", there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning

an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*

16. *Mr Philip* (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*
 17. *Mr Wiseman*—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province. *June 27, 1989.*

(June 8, 1989)

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 70 (a)

1. *Mr Brandt*—Notice—That the Government lacks the confidence of the House because of the failure of the Premier to establish and enforce ethical standards of conduct for members of his government, including Ministers of the Crown and senior appointed officials, because of the questionable relationship among members of the government, the Liberal Party of Ontario, political appointees and financial supporters, because of the allegations of favouritism in the awarding of contracts to friends of government, and because of the Premier's failure to assume full responsibility for the actions of those whom he has appointed. *June 26, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other

workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
-
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 13. *Mr Johnson* (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of "contributing to the delinquency of a juvenile", there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning

an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*

16. *Mr Philip (Etobicoke-Rexdale)*—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*
 17. *Mr Wiseman*—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province. *June 27, 1989.*
 18. *Ms Collins*—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness. *June 28, 1989.*

MOTION OF NON-CONFIDENCE UNDER STANDING ORDER 70 (a)

1. *Debated June 28, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a

Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 13. *Mr Johnson* (Wellington)—Resolution—That, in the opinion of this House, recognizing the importance of sports fishing to the economic well-being of the province, and the need to improve the management and quality of the aquatic resources in the Great Lakes fishery; the Government of Ontario should implement changes in the regulation and management of the Great Lakes fishery to ensure that sport fishing remains viable in Ontario by immediately initiating plans to eliminate the use of commercial gill-nets and provide assistance to the commercial fishing industry in converting to trap nets and by accelerating its fish-stocking program. *May 29, 1989.*
 15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of "contributing to the delinquency of a juvenile", there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*
 16. *Mr Philip* (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effec-

tive storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*

17. *Mr Wiseman*—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province. *June 27, 1989.*
 18. *Ms Collins*—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness. *June 28, 1989.*

(June 8, 1989)

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
13. *Debated June 29, 1989.*
15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*
16. *Mr Philip* (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*
17. *Mr Wiseman*—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide

training for these forces in their own regions of the province. *June 27, 1989.*

18. *Ms Collins*—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness. *June 28, 1989.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 71 (d).)

Ballot Item Numbers 11 and 12. *Debated June 29, 1989.*

Ballot Item Number 13. *To be debated on Thursday, July 6, 1989.*

Mr Black—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult.

Ballot Item Number 14. *To be debated on Thursday, July 6, 1989.*

Mr Philip (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations.

Ballot Item Number 15. *To be debated on Thursday, July 13, 1989.*

Mr Wiseman—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province.

Ballot Item Number 16. *To be debated on Thursday, July 13, 1989.*

Ms Collins—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness.

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*
 16. *Mr Philip* (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*
 17. *Mr Wiseman*—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province. *June 27, 1989.*

18. *Ms Collins*—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness. *June 28, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986.
April 27, 1989.
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 15. *Mr Black*—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult. *June 19, 1989.*
 16. *Mr Philip* (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations. *June 19, 1989.*
 17. *Mr Wiseman*—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province. *June 27, 1989.*

18. *Ms Collins*—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefore, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness. *June 28, 1989.*
 19. *Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade. *July 6, 1989.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 71 (d).)

Ballot Item Number 13. *To be debated today.*

Mr Black—Resolution—That, in the opinion of this House, recognizing that much of the criminal drug activity involving young people is initiated by adults and yet, since the abolition of the Juvenile Delinquents Act, which included an offence of “contributing to the delinquency of a juvenile”, there is no adequate legislative provision by which to discourage or punish adults who recruit children for drug-related purposes, the Government of Ontario should pursue discussions with Federal Justice officials concerning an amendment to the Criminal Code to create a specific offence of counselling, aiding, or abetting a youth to commit any offence under the Narcotics Control Act, Food and Drugs Act, Criminal Code, or certain provincial regulatory statutes. Such an offence should carry a greater penalty than a similar offence committed by an adult in relation to another adult.

Ballot Item Number 14. *To be debated today.*

Mr Philip (Etobicoke-Rexdale)—Resolution—That, in the opinion of this House, the Government of Canada should implement immediately effective storm water quality management measures at Pearson International Airport to eliminate potential water quality impairment in Etobicoke Creek and Mimico Creek due to airport runoff containing de-icing chemicals, spilled fuels, or other waterborne pollutants generated by airport operations.

Ballot Item Number 15. *To be debated on Thursday, July 13, 1989.*

Mr Wiseman—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province.

Ballot Item Number 16. *To be debated on Thursday, July 13, 1989.*

Ms Collins—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness.

Ballot Item Number 18. *To be debated on Thursday, July 20, 1989.*

*Mr Cureatz—Resolution—*That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

(June 8, 1989)

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
 - 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*
10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
 15. *Debated July 6, 1989.*
 16. *Debated July 6, 1989.*
 17. *Mr Wiseman*—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province. *June 27, 1989.*
 18. *Ms Collins*—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness. *June 28, 1989.*
 19. *Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight

years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade. *July 6, 1989.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 71 (d).)

Ballot Item Numbers 13 and 14. *Debated July 6, 1989.*

Ballot Item Number 15. *To be debated on Thursday, July 13, 1989.*

Mr Wiseman—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province.

Ballot Item Number 16. *To be debated on Thursday, July 13, 1989.*

Ms Collins—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness.

Ballot Item Number 18. *To be debated on Thursday, July 20, 1989.*

Mr Cureatz—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
17. *Mr Wiseman*—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province. *June 27, 1989.*
18. *Ms Collins*—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness. *June 28, 1989.*
19. *Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate

any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade. *July 6, 1989.*

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legislation as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*
2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*
8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and
- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*
17. *Mr Wiseman*—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province. *June 27, 1989.*
18. *Ms Collins*—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness. *June 28, 1989.*
19. *Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate

any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade. *July 6, 1989.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 71 (d).)

Ballot Item Number 15. *To be debated on Thursday, July 13, 1989.*

Mr Wiseman—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province.

Ballot Item Number 16. *To be debated on Thursday, July 13, 1989.*

Ms Collins—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness.

Ballot Item Number 18. *To be debated on Thursday, July 20, 1989.*

Mr Cureatz—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

PRIVATE MEMBERS' MOTIONS

1. *Ms Bryden*—Resolution—That in the opinion of this House, recognizing that huge rent increases year after year are constituting a threat to the competitiveness and survival of retail business in commercial strips serving residential neighbourhoods, the Government of Ontario should introduce legisla-

tion as soon as possible to regulate the rents for such business establishments in order to provide those businesses with protection from gouging landlords comparable to the protection given to tenants of residential rental premises under the Residential Rent Regulation Act, 1986. *April 27, 1989.*

2. *Ms Bryden*—Resolution—That, in the opinion of this House, recognizing that part-time workers in both the public and private sector are discriminated against by the denial of many benefits and rights provided to other workers in the same establishment, a charter of rights for part-time workers should be added to both the Employment Standards Act and the Labour Relations Act to provide pro rata benefits and collective bargaining rights to such workers and that they be made eligible for severance pay and retraining and readjustment programs provided for other workers displaced by technological change in the same establishment. *April 27, 1989.*

8. *Mr Brandt*—Motion of Censure—That this House has lost confidence in the Minister of the Environment's capacity to exercise his responsibilities as a Minister of the Crown, specifically his duty under the *Environmental Protection Act* to insure the public's safety from toxic chemicals, as well as his duty under the *Freedom of Information and Protection of Privacy Act, 1987* to disclose information regarding a grave environmental, health or safety hazard to the public.

Therefore, this House:

- 1) urges the Minister of the Environment to resign; and

- 2) calls on the Premier of Ontario to appoint a public enquiry into his government's failure to insure that the public was fully informed with regard to the importation, sale, and use of toxic fuel and the government's mismanagement of this issue resulting in potential health and safety risks to the citizens of Ontario. *May 15, 1989.*

10. *Mr Harris*—Resolution—That, in the opinion of this House, recognizing that non-refundable tax credits for political contributions effectively disenfranchise those without taxable incomes from this aspect of the political process; and, acknowledging the unfair treatment the current system affords lower-income Ontarians—many of whom are women, seniors, disabled, ethnic minorities, farmers and Native Canadians; legislation should be amended to provide for refundable tax credits to eliminate existing discrimination on the basis of income in the financing of Ontario political Parties and candidates. *May 17, 1989.*

 19. *Mr Cureatz*—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade. *July 6, 1989.*

PRIVATE MEMBERS' BUSINESS TO BE DEBATED

(Precedence in accordance with the Standing Order 71 (d).)

Ballot Item Number 15. *To be debated today.*

Mr Wiseman—Resolution—That, in the opinion of this House, recognizing that municipalities with populations under 10,000 people do not have the financial tax base to purchase modern, effective and reliable fire protection equipment, the Government should subsidize these communities with unconditional per household grants for this purpose. And, recognizing as well that it is inconvenient and expensive to send volunteer firefighters to train in Gravenhurst, that the Ministry of the Solicitor General provide training for these forces in their own regions of the province.

Ballot Item Number 16. *To be debated today.*

Ms Collins—Resolution—That, in the opinion of this House, recognizing that the protection of individual liberty and well-being, within a framework of legal rights and protections, is, and shall continue to be, the goal of Ontario's mental health policy; and, that the timely and appropriate treatment of acute mental illnesses, like schizophrenia and manic depression, is the only way to guarantee the liberty and well-being of those who suffer from such illnesses, and, that the failure to provide timely and appropriate treatment of acute mental illness causes enormous, but preventable human suffering, therefor, the Government of Ontario should guarantee the right of treatment to all persons suffering from acute mental illness.

Ballot Item Number 18. *To be debated on Thursday, July 20, 1989.*

Mr Cureatz—Resolution—That, in the opinion of this House, recognizing the importance of a reliable supply of electricity to individuals in their homes and to the economy in general for job creation, industry, and commercial establishments, and recognizing that several studies and reports have shown Ontario Hydro does not have the capacity to supply forecasted demands of electricity for the year 2000, and that it will take at least eight years to approve and construct a new generating station, and that this Government has known since 1986 it will need a new generating station to meet the demands of the mid- to late-1990s; the Government of Ontario, and in particular, the Minister of Energy, should direct Ontario Hydro to initiate any aspects of the process to establish a new generating station that can be approved in advance, such as the site-selection process, with consideration that it could be a station using one or more sources of fuel to ensure Ontario Hydro meets its obligations to provide all Ontarians with a reliable supply of power in the next decade.

Ballot Item Number 19. *To be debated on Thursday, July 27, 1989.*

Mr Furlong—Resolution—That, in the opinion of this House, recognizing that existing insurance legislation has not undergone a comprehensive review in many years and that the realities of international competition require the updating of the statutes to insure both consumer protection and fair competition in the insurance field, and recognizing that the breakdown of the so called four pillars necessitates

the updating of our statutes to insure continued confidence in Ontario's commercial marketplace and that continued discussions concerning insurance issues at both the Federal and Provincial levels are necessary, and further recognizing the desire by the Banks to enter the field of marketing insurance products, the Minister of Financial Institutions should immediately embark upon a comprehensive review of existing insurance legislation to ensure consumer protection and continued competitiveness in the marketing of insurance products in Ontario.
